

Global Customer Agreements, Maintenance Planners

Application deadline Continuous job offer

Job description Wärtsilä is a global company, which supports its customers throughout the lifecycle of their installations, providing service, operation and maintenance solutions for the land based power plants. We have more than 15,000 employees in 130 offices and are present in close to 70 countries worldwide.

We provide Global Maintenance and Operation Support services for ships engine room equipment delivered by Wärtsilä, as well as other brands. Within our GCA organisation, you will be part of the global Services organization, with local and regional management. You will work with colleagues in the GCA central office as well as in the global Services network, to bring the energy, excellence, and excitement required to build and enhance our business relationships.

As a GCA Maintenance Planner in our organisation, you will receive the required training to enable you to work in our truly international environment with unlimited potential for career development. You will take part in interesting challenges that will help advance your professional career, technical knowledge and skills.

In your position, you will plan and coordinate maintenance work scopes for an assigned fleet of vessels, update the maintenance management system and ensure that all technical feedback and data is received on time from ships and service partners. You are working very closely with the local Coordinators in different ports along the trade routes of the vessels and with internal and external partners. You report to the Contract Manager(s), who have overall responsibility for a certain contract. You will be supported by our technical experts, as well as by our GCA supply team.

Responsibilities

- Plan and coordinate maintenance.
- Ensure timely feedback from ships and service teams.
- Exchange information with and send instructions for maintenance to ships, customer's superintendents, network companies, internal partners.
- Ensure required documentation and timely reporting.
- Propose and support continuous improvements.
- Promote GCA services where required.

Requirements

- Degree in Mechanical, Electrical, Project Engineering, Marine Engineering or equivalent experience;
- Former seagoing engineer, e.g. 2nd Eng., 3rd Eng, Electrical Eng.
- Project management, coordination, communication, presentation skills.
- Fluent English language skills.
- Team player, initiative, openness, self motivated
